PR in Germany Friedberger Anlage 18A, Frankfurt 60316 20.09.1988

Systems redesigner with 10+ years in product strategy, data platforms, and AI delivery.

Professional Experience

Lufthansa Group / Digital Business Consultant, Data & AI

- 01/2024 – present | Frankfurt, Germany
- Designed and shipped an agentic AI system, published on enterprise GitHub, that orchestrates four internal systems to validate business-rule changes and compute blast radius.
 - Led automation of B2B Booking Flow, saving €530K a year in operational efficiency.
 - Built a KPI harmonisation and governance framework, shipping a Tableau dashboard as the reporting reference.
 - Diagnosed data quality issues and led requirements analysis for a revenue-optimized ranking model across AI recommendation pipelines for ancillaries and destinations.

AABSOO / Founder

- 12/2020 – 08/2023 | Tehran, Iran
- Designed and built vertical-farming automation hardware from prototype to production, achieving 200K annual yields.
 - Ran the full product lifecycle across hardware and software, including a cloud-based IoT monitoring system with automated control loops.
 - Concurrently built a UN FAO Innovation Lab framework, facilitating workshops with 170+ global participants on digital governance.

Prague Pastry / Product Owner

- 01/2020 – 08/2021 | Tehran, Iran
- Owned end-to-end B2B product lifecycle across Sales, Marketing, and Accounting via a data-driven roadmap.
 - Applied Lean to streamline supply chain and inventory ops; built performance reports for strategic decisions.

DMOND Innovation Group / Senior Business Developer

- 05/2018 – 09/2019 | Tehran, Iran
- Identified funding opportunities across four offices and mentored 100+ startups on strategy and go-to-market.
 - Established success metrics for BootCamp, guiding product management graduates.

Google / Speech Data Specialist

- 02/2014 – 05/2014 | New York, USA
- Recruited 500 voice sample volunteers across NYC to build a diverse speech dataset for Persian language localisation of Google's voice recognition models.
